4

Stop TB Partnership cornerstones

- Challenge Facility for Civil Society Mechanism
- Direct support of grass root organizations
- Promote ownership of TB affected communities
- Access large pool of south-based CRG experts
- Maintain coordination role
- Build partnerships at country, regional and global levels

The **STB** CRG Transformative kit unpacked: the unique approach

Stop TB Partnership cornerstones

- **Challenge Facility for Civil Society Mechanism**
- **Direct support of grass root organizations**
- **Promote ownership of TB affected communities**
- **Access large pool of south-based CRG experts**
- **Maintain coordination role**
- **Build partnerships at country, regional and global levels**

Addressing Barriers

Focus on **TB** key populations

- know your epidemics for a people centered approach to **End TB**

People who have
INCREASED EXPOSURE
to TB
due to where they
live or work

Prisoners, sex workers, miners, hospital visitors,
health care workers and community health workers

PEOPLE WHO:

- ✦ live in urban slums
 - ✦ live in poorly ventilated or dusty conditions
 - ✦ are contacts of TB patients, including children
 - ✦ work in environments that are overcrowded
 - ✦ work in hospitals or are health care professionals
-

People who have
LIMITED ACCESS TO QUALITY TB SERVICES

Migrant workers, women in settings with gender disparity, children, refugees or internally displaced people, illegal miners, and undocumented migrants

PEOPLE WHO:

- ✦ are from tribal populations or indigenous groups
 - ✦ are homeless
 - ✦ live in hard-to-reach areas
 - ✦ live in homes for the elderly
 - ✦ have mental or physical disabilities
 - ✦ face legal barriers to access care
 - ✦ are lesbian, gay, bisexual or transgender
-

People at
INCREASED RISK
of TB because
of **biological or behavioural factors**
that compromise
immune function

PEOPLE WHO:

- ✦ live with HIV
 - ✦ have diabetes or silicosis
 - ✦ undergo immunosuppressive therapy
 - ✦ are undernourished
 - ✦ use tobacco
 - ✦ suffer from alcohol-use disorders
 - ✦ inject drugs
-

Stop TB Partnership Tools

Stop TB Partnership

changes mindset reflecting

CRG priorities

Expected impact and outcomes

- No one is left behind – the national policies, laws and strategies respond to CRG principles: community-led, people-centered, rights-based and gender-transformative responses to TB;
- National TB programs and service delivery are demand-driven, accessible, innovative, high quality and focused on key populations
- TB decision-making, governance and accountability meaningfully engage all stakeholders (in particular communities affected by TB and CSOs)
- TB affected community and CSOs are engaged, capacitated and mobilized for full TB response
- Regional and global TB platforms are engaged in global dialog to End TB
- Cross-sectoral collaboration fully functional and deliver
